LEGO® NINJAGO® HISTORY

LEGO® NINJAGO® City is an ancient place, situated on the coast of NINJAGO Island. A sprawling metropolis, lack of real estate eventually led to the city being built vertically instead of spreading out horizontally. As a result, the city consists of layers constructed on top of each other. It is possible to trace the history of the city simply by working your way up from the lowest level. The city is broken up into three levels, known as the Old World, the Street and the High-rise.

The city truly has something for everyone. Restaurants and shops of every sort can be found somewhere in the metropolis. People from all over the island aspire to live and work in NINJAGO City, and the mix of residents brings a wonderful combination of cultures to the place. From the lowest level to the top of the top, NINJAGO City is a colorful and constantly entertaining place to live or visit.

Although the neighborhoods of NINJAGO City are very different from each other, people move freely between them to buy goods and do business. And, of course, the ninja team is always around to protect the citizens from evil.

What new adventures are waiting in NINJAGO City? You can make up your own stories or recreate what you see in THE LEGO NINJAGO MOVIE™. You decide!

MOVIE DIRECTOR INTERVIEW

Q: What was your vision of LEGO® NINJAGO® City going into the movie?

A: One of my first ideas about THE LEGO® NINJAGO® MOVIE™ from a stylistic point of view was to bring the toys outside into a natural environment, as if we are playing with LEGO bricks in the back yard. Along with the plants and other organic elements, I knew I wanted to have a lot of water. I thought about coastal cities in Asia and Europe that are designed around canals, and this felt like a great place to start. The other idea is that this is a city that is constantly rebuilding itself because of the continual attacks from Garmadon, so it felt really fun to think about a city building and re-building on top of itself.

Q: LEGO® NINJAGO® City is already familiar to fans from the animated TV show. How is the movie version different?

A: Aside from the scope and scale of it, it is not much different.

Q: How well do you think the LEGO® NINJAGO® City set captured the spirit of the setting in the film?

A: It is amazing. I know I am biased, but I think this is one of the coolest LEGO® sets ever – it has captured the spirit beautifully. In fact, there are some very specific things in the set that are actually in the movie. Can you find them?

Q: Sometimes a setting can be a character in its own right in a film. Do you think that is the case with LEGO® NINJAGO® City in your movie?

A: Absolutely. The design reflects the personality and variety of culture of the people of NINJAGO® City. There is a whimsy to the architecture that represents their good nature and positivity in the face of constant attacks from Garmadon. The people of NINJAGO City love their home and will not let it be destroyed by Garmadon.

Q: Do you have a favorite character or function in the LEGO® NINJAGO® City set?

A: It is funny, but I really love the ATM cash machine. It spits out money!

Q: The layers of the model show a city that has been built upon itself over the years. How central is this concept to the vision of the city in the film? Were there any real-life examples referenced as this idea was being developed?

A: As the film progressed, we developed a lot of backstory as to how the city was built. The concept is that the ancient feudal NINJAGO® town grew into the major metropolis it is today as the people built and rebuilt the city vertically upon the structures of the original village. We loved this idea, not only because it feels very much in LEGO® style, but also because it reflects how the present day NINJAGO City is rooted in its history. We looked at many real-world examples like Singapore, Hong Kong, Seattle, Sydney, New York and even Venice, London and Amsterdam.

- Charlie Bean, from the Directing Team of THE LEGO® NINJAGO® MOVIE™

THE LEGO® NINJAGO® MOVIE™ IMAGES

MODEL DESIGNER INTERVIEW

Q: What are some of the challenges of turning a movie location into a model?

A: In the movie, LEGO® NINJAGO® City is unlike anything we have seen before in a LEGO set. One of the main challenges with a model like this is the difference in size between the vast on-screen location and the smaller model version.

As both are built from LEGO bricks, our approach was to choose key silhouettes and details which could be rebuilt at a smaller scale and still match the overall look.

In order to capture the scope of NINJAGO City, we split the model into three sections, each representing a different chapter of the city's evolution. However, this led to the challenge of blending the levels together into a complete model. For example, we positioned the tower further back on the model, to give the impression of it rising from behind the buildings.

Q: What is your favorite functionality in the model?

A: Nico: Definitely the crab cooking function. After going through multiple iterations, some of which involved ejecting the uncooked crab back into the water, we ended up with a simple but very robust function that can transform almost anything that can fit inside the grill!

Chris: For me I would have to pick the sushi bar, as it is very simple and easily decodable for what it is meant to represent.

Q: The architectural style of LEGO® NINJAGO® City is layers built upon layers as time goes on. Did you do any research on similar structures in the real world while preparing to create this model?

A: We shared a lot of the same inspiration that the moviemakers used, but we also drew inspiration from real-life places we have visited, amazing cyberpunk creations in the fan community, and of course the NINJAGO® TV show.

Q: What was the most fun part of designing such a big and complex model?

A: Nico: My favorite part of designing this model was the opportunity to include things which we would not normally have in a NINJAGO® set, such as the pufferfish or the pink bonsai tree.

Chris: I found the most fun aspect of this model was how easy the size allowed me to visualize the characters' movements and interactions around the city.

Q: What other lines have you designed models for?

A: Nico: Up until now I have worked primarily for NINJAGO®, but have also helped out in small amounts on the MIXELS™ and BIONICLE® themes.

Chris: Having worked at the LEGO® Group for the past five years I have been lucky to work on Galaxy Squad, THE LEGO MOVIE™, Ultra Agents, Speed Champions and of course NINJAGO.

Q: Do you have a favorite ninja?

A: Nico: Cole.

Chris: It has to be Zane because he is a robot and a ninja. I think everyone can agree that he is cool.

LEVEL 1 – THE OLD WORLD

The “ground floor” of the city is the oldest occupied section (it is possible that there are still older layers belowground). Here you can find evidence of the thriving fishing industry, including a well-known fish market and some excellent little seafood restaurants. It is also a great place to shop for bargains.

The lower level is great for walking around and seeing the sights. A stone pathway runs along the docks and leads to an ancient bridge. At any time of the day, visitors can see fishing boats leaving to go cast their nets in the coastal waters.

Residents live in small but comfortable homes here. Their “neighbors” include the base of the city’s elevator and the storage and repair facility for the maintenance robot.

MINIFIGURES

KAI

Kai's days off are packed with activities – ninja training, cooking, eating and trying to organize a Red Ninja fan club. Sometimes he has to be reminded to go to school!

JAMANAKAI VILLAGER

This aged man wanders around the lower level of the city, swapping frogs he has raised for trinkets. Very little of what he says makes any sense, but people listen anyway because they want the frogs.

SALLY

Smart and quick, she's great at swapping stuff for other things she needs. She drives a hard bargain and knows just how much a frog is worth.

IVY WALKER

A busy working mom, Ivy rarely has any time to herself. Her most prized possession is a huge diamond, which she spends a great deal of time polishing. Just how she got it, no one knows.

SWEEP

This maintenance robot travels the city, picking up trash and sweeping the streets clean. When it is not on duty, it sometimes starts cleaning people and places on its own, usually without asking first.

KONRAD

Konrad is known for being great at catching crabs and other fish. He is also highly skilled at napping, which he says is more of a science than an art. It is said that Konrad can fall asleep anywhere within five seconds.

LEVEL 2 - THE STREET

The street level of NINJAGO® City boasts more affordable shops and restaurants and is always crowded with shoppers and tourists. It is the place to go, especially on weekends, when everyone from bargain hunters to upscale shoppers can be found going from store to store.

One of the main draws is Crab Kitchen, a reasonably priced and well-known seafood restaurant. All the food is made fresh, using crabs caught in the waters off the city. Crab Kitchen is in a perpetual rivalry with the sushi restaurant on the upper level, so going into one and saying you really like the other is a bad idea.

After you have finished eating, you can take a walk over to the comic store to pick up the latest adventures of your favorite heroes and all sorts of ninja memorabilia. There is also a high-fashion shop here, offering the very latest in ninja team gear for their fans.

Once you are done shopping, you can pick up some extra cash at the ATM and then check out the movie poster stand to see what is playing.

MINIFIGURES

SEVERIN BLACK

Known for his delicious dishes, this chef is also famous for his rivalry with his brother, a well-known sushi chef. You can often find him at the docks, nagging the fishermen to make sure he gets the best crabs and his brother gets last week's fish.

MOTHER DÓOMSDAY

Mother Dóomsday is the owner of Dóomsday Comix and a big fan of the ninja. He is usually busy running the store or at comic conventions, but always finds time to follow the exploits of his favorite ninja heroes.

TOMMY

He is the biggest fan of the Green Ninja anywhere! When he is not in school, you can find him drawing Green Ninja comics, writing about the hero on his blog, and uploading Green Ninja memes.

GUY

A successful executive, Guy has lots of money to spend on whatever he wants. But you will not catch him on the Old World level. He prefers to shop in the pricier stores higher up.

JUNO

She is a fashion designer and she is all about looking her best. She loves to shop for clothes, but does not have very good luck downtown. Something is always messing up her outfit!

THE NINJAGO MOVIE

70620

LEVEL 3 THE HIGH-RISE

LEGO.com/NINJAGOMOVIE

Booklet available in English on
Heft in deutscher Sprache erhältlich auf
Livret disponible en français sur
Libretto disponibile in italiano su
Folleto disponible en español en
Folheto disponível em português em
A füzet magyarul ezen a honlapon olvasható
如需中文版手册, 请访问 LEGO.com/NINJAGO

LEVEL 3 – THE HIGH-RISE

The upper level of NINJAGO® City is home to some of the more exclusive restaurants and living spaces. It is perhaps best known for the city's finest sushi restaurant, offering rooftop dining for those who can afford the prices.

Lloyd and his mom share an apartment here, which features a hidden compartment for his ninja garb. The view from the apartment is quite spectacular, which explains why people are willing to pay high rents to live at the top of the city. Construction of new apartment buildings and shops is going on all the time.

Other features of the top level are the broadcast antenna used by radio and TV stations around the city and fascinating animal sculptures that decorate many rooftops. This is also as far as one can travel on the city's elevator.

MINIFIGURES

LLOYD GARMADON

Lloyd is famous for being one of the only people able to get photos of the Green Ninja. He also has one of the biggest collections of Green Ninja merchandise in the city.

GREEN NINJA SUIT

When danger threatens NINJAGO® City, Lloyd Garmadon sneaks off to his attic and puts on this outfit to become – the Green Ninja! Designed for stealth and comfort, the sight of it also strikes fear into the hearts of villains.

MISAKO

Misako is Lloyd's mother, and she loves him dearly and does everything she can to be a good mom. That does not mean she has not kept a few secrets from him, however ...

JAY

When Jay's parents are busy in the junkyard, he sneaks out and fights crime as a heroic ninja. But with mysterious fish-related crimes happening all over the city, will even his skills be enough to save the day?

OFFICER NOONAN

Officer Noonan is devoted to protecting and serving the people of NINJAGO® City. Staff cuts mean she is often working on her own, which can make keeping a rein on crime – especially fish-related crime – pretty difficult.

SHARK ARMY GUNNER

A serious troublemaker in NINJAGO® City, this crook has been going around forcing local businesses to give him fish. Just what he is doing with all this fish, no one knows, but you can bet Jay and Lloyd will find out.
